

# BLUE OCEAN LOGISTICS

Logistic Solutions For Your Worldwide Delivery

## CORPORATE PROFILE

Blue Ocean Logistics is a private own enterprise that has involved in international logistics business since mid of 2003. During the years, the company has specialized in export/import for both Ocean and Air cargoes and has moved about 3400 TEUs of frozen, dangerous goods, ordinary and even non-containerized cargoes using various selected world class shipping lines; and at the same time, delivered many tons of electronic parts, garment and chill cargoes to and from various places using aircraft.

Along with our new venture and corporate image, the company now offers a dynamic concept of Total Logistics Services, which covers ranging services of warehousing, re-packing, trucking, handling & custom clearance, shipping and delivering to customers' doors. In competitive and fast-moving business world, we understand that customers need a trustable and reliable partner to handle every aspect of their logistics; and we have dedicated ourselves to handle this logistic part, while they could wisely use their time to concentrate on core business, because they simply trust that their logistic activities are under control.

Let us to be your logistic solution for your worldwide delivery ...

### ■ Our Mission

To be the single-source supply-chain partner of choice, providing total logistics services that allow us to continuously create value for customers.

### ■ Our Vision

To provide innovative logistics solutions that support our customers' needs and enhance complete supply-chain performance. We will effectively use of our operating expertise, integrated technology applications and collaborative project planning. By remaining flexible and innovative, we will work with our customers to create long-term partnerships that focus on quality, cost savings and world-class solutions.

### ■ Our Objectives

To provide premium quality services and logistic solutions that could meet and exceed the customers' expectation and satisfaction.

## TOTAL LOGISTICS – ONE STOP SERVICE

As part of our commitment, we will provide safe, efficient and smooth cargo delivery.

### ■ SEA FREIGHT

While shipping continues to be very important in international business, it is now has become more complex than just deliver goods. It is one link in global "supply chains" that requires assurance, effectiveness and competitiveness for movement of raw materials, parts, or even finished products.

Apart of offering competitive freights, we assist customers to manage logistics with quality assurance from selected world-class shipping lines & NVOCC. In deed, our years collaboration with the carriers have also given more advantages, including first priority cargoes, protected spaces, just in time delivery and up to date information.

Our sea packages also offer comprehensive services including :

1. FCL (Full Container Loaded)
2. LCL (Less-than-Container Loaded)
3. NCL (Non-Containerized Loaded)

We could also arrange customized delivery mode as follows :

1. Port – Port
2. Port – Door
3. Door – Port
4. Door – Door

You will find the best solutions and the perfect fit for all your different transportation needs with us.

### ■ AIR FREIGHT

In dynamic business world, we understand that customers require customized logistics solutions to accommodate their different needs. For immediate delivery, we provide air freight service with various airlines' flight times and up-to-date cargoes tracking facilities for customers' reference.

Our air service also covers delivery of documents, parcels, high value, chill, chemicals, and even oversize cargoes from Door to Door, Door-Port, Port-Door or Port – Port, depending on customers' preferences.

Our experience operation staff at the airport will assure each of our valuable cargoes will be safety loaded and delivered to various destinations.

### ■ IN LAND TRANSPORT

Reliable in land transport is very essential in logistic. We assure to arrange trucking for containerized, refrigerated, loose, heavy, bulky, lengthy and any special cargoes for both sea and air movements. At the same time, we also emphasize on a timely and safety cargoes delivery with reliable equipments.

### ■ HANDLING AND CUSTOM CLEARANCE

Our customs clearance agents are experts in local specifications, conditions and regulations. Supported by computerized systems of data interchange could provide quick and accurate customs formalities without any complications. Our services incorporate preparation of all necessary documentation, declarations, reporting to authorities and security sealing.

### ■ WAREHOUSING

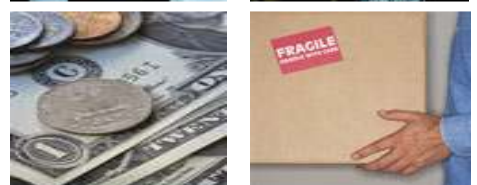

Warehousing is un-separated tools in supply chain management. We provide bonded & non-bonded warehouse, as well as activities of clearing point & stripping, consolidating, re-packing, bar-coding, stuffing, fumigating and delivering. We dispatch our experience staff to ensure our logistic solutions could accommodate customers' needs in term of size, distance, temperature control, advance security system.

### ■ SPECIAL SERVICE

#### ■ REMOVAL

Household or office removal is more than just moving cases and furniture. It is complex process, especially if the new residence is located in a foreign country. It involves many issues, including: packaging, suitable transport modes, security & insurance, custom management, and door delivery at destination. We will assist whenever you go.

## ■ VALUE ADDED SERVICES

### ■ LOGISTICS CONSULTANT

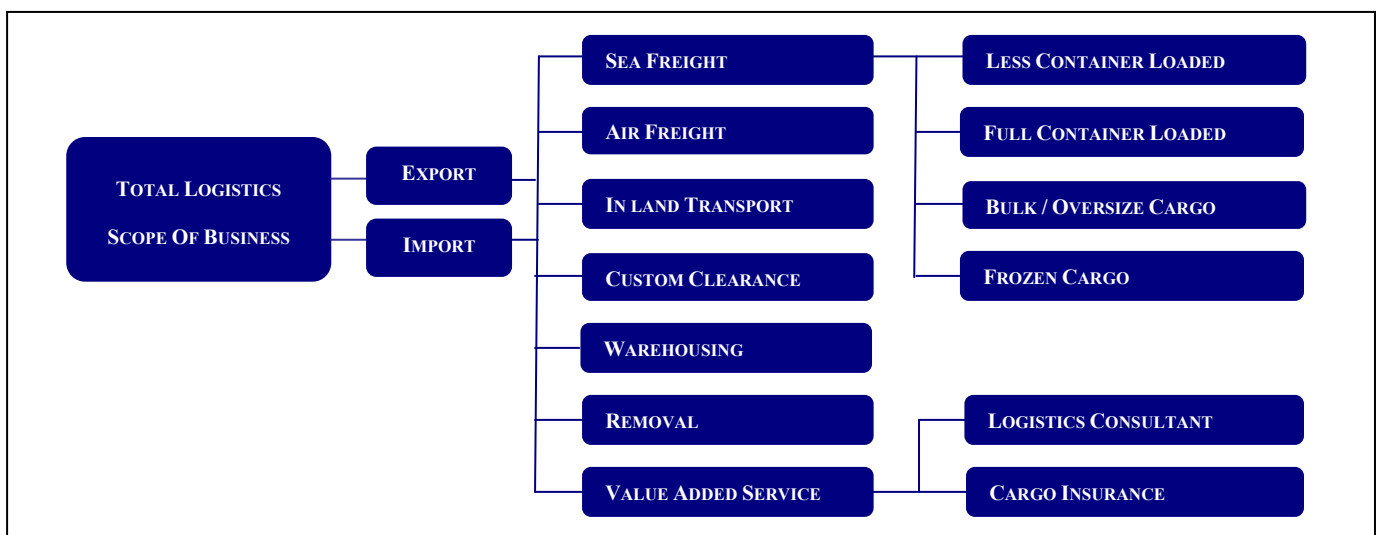

As reliable logistic provider, we are obligated to give advices and options; hence customers have clearer pictures about quality of preferable carriers, condition at delivery or loading ports, and other factors that benefit them. For new entries in export-import, we provide information & assist them to comply with government regulation.

### ■ MARINE & AIR INSURANCES

For an extra service, we could arrange insurance for both marine and air cargoes based on customers' preferable insurance agencies.

### ■ BOOKING CONFIRMATION

To benefit and create a peace of mind, we will send booking confirmation reports for customers' references.

## AGENTS AND NETWORK

We are ready to move Air and Ocean cargoes worldwide. Our branches and overseas agents though out Asia and Australia continents will provide full assistances to our customers to ensure safe and smooth deliveries.
